Academy (SIMAC), 17 partners*

Future-Proof Education & Training

- ▣ **Scope** EU-wide application; All levels of education and upskilling
- ▣ **Toolbox** For Transferability, Sustainability and Adaptability
- ▣ **Educational Packages & Guides** 8 EPs; Interactive videos, terminology...
- ▣ **Structured Cooperation** Sustainable benefits, beyond network
- ▣ **Business Education Partnerships** How to achieve a specific cooperation
- ▣ **Where to find it** SkillSea website: <https://www.skillsea.eu/>

Toolbox approach for Educational Packages (EP)

- ▣ Toolbox approach for the Educational Packages (EP)
 - Target Groups (previous experiences and competencies, environment)
 - Qualification Standards
 - Learning Outcomes
 - Assessment Methods and Delivery models (learning methods, mat.)
 - Evaluation & Piloting
- ▣ Educational Packages (Digital/Green/Leadership/Innovation & Entrepreneurship/STEM/Train-the-Trainer)
- ▣ "Translate" new interests in abilities etc. into specific learning outcomes
- ▣ Using common tools/descriptors to facilitate mobility and recognition of competencies and experiences acquired across sectors

Structural Cooperation – Cluster Inclusion

- Include and involve broader clusters through the METs, for sustainability and utilizing stakeholder insight in implementation
- Gain access to material, best practices etc. – products and access, commitment to specific tasks
- Specifications on core activities and sharing of outcomes, admission criteria and process for inclusion of new participants and additional specifications
- Effect on skills and competitiveness, renewed skills reviews – practical value
- Dissemination of findings, best practice - e.g. how to validate skills acquired prior to training/enrollment; facilitate recognition; increasing mobilities for students/trainees/jobseekers; measures to track learners

Business/Education Partnerships

- Practical, inspirational tool for planning cooperation between corporations and education institutions
- Strengthen communication and synergies, provide ideas on how to establish and conduct partnerships – which type, approach, level of involvement etc. could work well given the type of outcome desired – innovation workshops, internships, part of studies, projects or thesis based on a problem or idea in the company, advisory board etc.
- Sharing best practices & experiences gained
- Outcomes: Presentation of cases on portal; sustained by Structured Cooperation and users of portal

Thank you for your attention!
